

TOPflite office team from left: Sharni, Fiona, Lisa, Greg, Trace, Briar & Charissa.

Hello all & welcome Summer!

The colder than normal Spring has seen a late start to the breeding season for a lot of animals so the usual Spring rush has taken a bit longer to kick in, we are seeing things pick up now however as we head into Christmas.

We are pleased to announce the arrival of some new and improved rabbit treats – as well as some great specials for Summer. Our range of natural Gravel has performed well with the stores who have given it a go, and at 25% off, now is a great time to try it.

At Topflite we aim to deliver top quality service to all of our customers. Our friendly customer service and sales team (featured above) are always here to help with any queries or issues. We have recently had a few new additions to the team with Fiona & Sharni now on board in the Oamaru office. We also have Trace Venimore on the road as our Regional Sales Representative for the North Island (Hamilton & South). Trace is taking over some of William's role, but William will still be looking after our customers in Auckland & Northland.

I would like to thank you all for your business in 2015 and wish you and your family the best for the holidays.

Greg Webster,  
Managing Director.

## Bert's corner

### Bert's creative tips for bird feeders

Birds use a variety of materials to construct their nests. There is usually plenty of nesting materials that birds can find in the wild, but to help make it easier why not re-use a Topflite Feeder?

Fill an empty cake feeder or truffle feeder with pine needles, feather, dried grass, roots, dog hair, shredded paper, and/or wool.

To encourage birds to use birdhouses in your backyard place the re-purpose feeders full of nesting materials near the birdhouse.

Why not re-use a Cake Feeder as a chicken boredom buster, and fill it with kale or cabbage. Empty coconut feeders make great nests for the smaller birds.
